Exemplary Center for Reading Instruction (ECRI). A program designed as a practical guide to teach reading and other language skills to students in grades K-12. In-service for teachers is based on research findings on effective instruction.

Description The Exemplary Center for Reading Instruction's purpose is to teach teachers so they can use effective teaching strategies that prevent failure. These strategies include: eliciting accurate and rapid responses during instruction, establishing high levels of mastery, maintaining on-task behavior, integrating the teaching of language skills, using effective management and monitoring systems, varying schedules and classes so students can invest the time and energy needed to learn, and supervising students' hands-on activities and practice. The strategies are incorporated into the teaching of reading, spelling, grammar, creative and expository writing, literature, speaking, and drama skills, and are extremely effective in content instruction such as science and social studies.

Students' attention is sustained with the momentum of the instruction and reinforcement offered during practice time. Overt responses appeal to all preferred modalities of learning. Instruction is provided by ECRI so teachers can: utilize critical teacher behaviors identified through research, develop a class and/or school scheduling and record keeping system for mastery and individualization, and teach reading and language skills effectively.

Teachers learn to teach phonemic awareness, word recognition skills, vocabulary through phonics and word structure methods, literal, interpretative, critical and creative comprehension, study skills, literature, and composition as they use readers, literature series, novels, trade and content books typically available in the school.

Students demonstrate mastery through their participation in small-group discussions, writing, locating, organizing, and evaluating information as well as with criterion referenced tests written for the different reading and literature series and with standardized tests.

ECRI students demonstrate competency in their ability to reason, solve problems, apply knowledge, read, write, and communicate (National Goal 3). ECRI students remain in school longer because of their success in school and their higher academic scores (National Goal 2).

A description of ECRI is included in the "Catalog of the Education Commission of the States" at: <http://www.ecs.org/clearinghouse/23/32/2332.htm> as a Promising Practice, and was included in the "Catalog of School Reform Models" by the Northwest Regional Educational Laboratory (review an excerpt of the NWREL catalog at: <http://www.ecri.cc/NWRELCatalog.pdf>). Streamed Internet broadcasts showing ECRI classes can be viewed at <http://www.ecri.cc/streamed.htm>. ECRI is listed in John Hopkins University's Best Evidence Encyclopedia (BEE) website as a program rated as having evidence of effectiveness for upper elementary reading.

Evidence of Effectiveness Regular education ECRI students demonstrate significantly greater gains ($p < .01$) on the reading subscales of standardized achievement tests than (1) comparison group students receiving their regular reading instruction and (2) expectancies derived from national normative data.

Special needs ECRI students (Chapter I, bilingual, remedial) and special education students (learning disabled) demonstrate significantly ($p < .01$) greater than expected gains (derived from national normative data) and the Total Reading composite scales of standardized achievement tests.

Requirements For teachers to begin to implement ECRI, five to 10 days of instruction are preferred with one ECRI staff person for 25-30 trainees. The program includes lecture and practice sessions, preparation of materials for classroom use, and teaching students in a simulated setting. Following this, periodic visits by ECRI staff to trainees' classrooms to demonstrate, model, and monitor are encouraged. The length of time to replicate the ECRI model varies. Existing district reading materials may be used. Supplies for teachers and pupils are those usually found in schools. ECRI teacher texts and tests are used by teachers during in-service. No special staffing or facilities are required to implement ECRI.

Costs Honorarium is \$1,000/day plus expenses. Required ECRI teacher texts are approximately \$285/teacher plus shipping.

Services Awareness materials are available at no cost. Visitors are welcome by appointment at the program site, Reid School, www.reidschool.com, and additional sites in other states. Program staff are available to attend out-of-state awareness meetings. Teacher of Teachers Conferences are held in the summer at Reid Ranch in Utah. Training, implementation, and follow-up services are available at adopter sites and at the program site. An annual newsletter, *The Reader*, is available online at www.ecri.cc/reader. Printed past issues are also available at cost.

- TT001 **Teaching Vocabulary (Eight Methods of Instruction)
and Teaching Letter Names and Sounds** \$35.95
(Author: Ethna R. Reid)

Choosing among eight different methods to introduce vocabulary allows teachers to develop students' excellent visual and auditory discrimination, their ability to detect word parts, and identify syllables. Students learn much about the characteristics of the English language.

Teachers learn, with the assistance of this text, which words to teach through phonics, by sight or context, or through five different word structure methods. They also learn when they should use each method. Students learn to generalize from each method of instruction and are able on their own, then, to pronounce new words. Retention soars.

During instruction, students learn the meaning of their new words. They read the words in sentences and use them in sentences. Later, they are able to use the words in their conversations and in their writing.

Teaching letter names and sounds is invaluable for teachers who teach pupils at an initial level of reading. A variety of exercises provides multiple practices as pupils learn to name letters and attach sounds to symbols. Phonemic awareness develops as students recognize and participate in the various activities provided in this text.

Visual discrimination of letters is essential if pupils are to learn to read. Students must recognize and remember differences in letters, and a knowledge of letter names is needed if pupils are to spell words.

Hearing differences and likenesses in sounds (auditory discrimination) and recognizing letters that represent sounds assist pupils as they learn to read. Once letters are named, pupils are taught the sounds that a letter or combination of letters represent.

- TT002 **Teaching Spelling and Teaching Proofing Through Dictation** \$25.95
TT003 **Teaching Manuscript and Cursive Penmanship Skills** \$17.95
(Author: Ethna R. Reid)

As pupils learn to spell, write legibly and rapidly what they read, and proof their work, their reading levels increase and they use their ability to express themselves in writing more frequently. From the exercises found in *Teaching Spelling and Teaching Proofing Through Dictation* and *Teaching Manuscript and Cursive Penmanship Skills*, students learn to evaluate the quality of their writing and spelling. They learn to proof and correct their writing. Rate building practices are important in writing and are included in penmanship instruction.

Not only can teachers find directives for teaching spelling, penmanship and proofing skills in these two texts, but they also learn to develop pupils' auditory sequential memory through dictation and visual sequential memory as they teach them to write and spell.

TT004 Teaching Literal, Interpretative, Critical, and Creative Comprehension \$39.95
 (Author: Ethna R. Reid)

Unless students understand the words they read, they lose interest in reading. Comprehension is critical for persons to become lifetime readers. This text includes the rationale and strategies for teaching literal, interpretative, critical, and creative comprehension. Pupils not only learn to use the comprehension skills as they read, but they also learn to identify questions that test their knowledge of these skills. Comprehension is taught as pupils listen or read orally and silently. Teachers learn the importance of moving beyond teaching only literal comprehension. Even in the lower grade levels, students can learn to infer, become a critic, and create as they read – if teachers teach them these important skills.

TT005 Teaching Critical Thinking and Specialized Study Skills \$39.95
 (Author: Ethna R. Reid)

Critical thinking and specialized study skills assist a reader to obtain information more readily and to transfer the information so it makes sense and is used to serve meaningful purposes identified by the learner. Teachers use a variety of written materials, literary genre, and content texts to teach such skills.

The specific lessons contained in this text include:

- | | |
|---|---|
| 1. Select the Topic | 7b. Locate and Use Information, II (variety of other sources, such as atlas, thesaurus, etc.) |
| 2. Select the Main Idea | c. Locate and Use Parts of a Newspaper |
| 3. Evaluate the Relevancy of Sentences, Parts I and II | 8. Follow Written and Verbal Directions |
| 4. Organize Information on Levels of Importance | 9. Read and Use Graphic Aids |
| 5a. Take Notes: Write Topic and Main Idea from What Is Read/Heard | 10. Survey a Book/Chapter |
| b. Take Notes: Write Topic and Subtopics in Outline Form from What Is Read/Heard | 11. Develop Reading Flexibility: Skimming |
| 6a. Alphabetize: Say Letters of the Alphabet in Order, and Arrange Words in Alphabetical Order by the First Two, Three and Four Letters | 12. Develop Reading Flexibility: Scanning |
| b. Alphabetize: Arrange Words and Acronyms in Alphabetical Order | 13. Write an Essay: Descriptive, Narrative, Persuasive, Expository |
| 7a. Locate and Use Information, I (textbook, dictionary, encyclopedia, etc.) | 14. Read and Write Abbreviations |
| | 15. Read and Use Symbols |
| | 16. Locate and Use Measuring Devices |
| | 17. Learn from Observing Demonstrations and from Personal Experience |

Although the list of critical thinking and specialized skills above is not exhaustive, the use of these skills will stimulate wider reading with greater understanding.

In addition to general reading, the above-listed skills are frequently used in specific ways in various subject areas. Samples of these include reading maps and time lines in social studies, reading graphs and equations in mathematics, reading figures and diagrams in science, reading recipes in home economics and football plays in physical education. Some of these specialized skills can be taught in a generic way as the reading of graphic aids is taught.

This text will assist teachers in helping students to accommodate to a different style of writing, which is characterized by tenseness, density of ideas, and inclusion of many unfamiliar and different concepts. Specialized study skills enable students to learn to use resources necessary for effective reading.

TT006 Teaching Scheduling and Record Keeping \$25.95
 (Author: Ethna R. Reid)

This basic text helps teachers find an appropriate schedule for the time they spend teaching reading and other language skills and to learn to teach students to work independently toward mastery. Directives to orient students to a schedule and a record keeping system are included. Record forms for duplication are provided. ECRI's research and rationale that are contained in the text assist teachers and parents in understanding the ECRI teaching techniques and strategies for mastery learning. Recommended materials and equipment for an ECRI classroom are listed. Directives for holding a small group discussion, judging readiness to take a mastery test, writing without the teacher's help, getting ready to conference and to conference are but a few of those contained in the text.

TT007 **Teaching Literature** \$35.95
(Author: Ethna R. Reid)

The purpose of the *Teaching Literature and Teaching Writing* texts is to help teachers and students not only appreciate literature but also to identify the unique characteristics of great writing. The intent of the *Teaching Literature* text is to assist students to understand types of literature and various author's purposes and abilities. Such understanding enhances the spontaneity in a literary experience.

Teaching Literature stimulates the interest of listeners and readers in the techniques and devices authors use to convey meaning. As a result of the lessons, students learn to recognize and replicate in their writing what authors have done to give their readers a message, and to share their experiences and feelings.

The teaching in this text begins first with a model. The teacher reads a sample of a literary selection to the students. Students then read suggested literary examples in the prompting and practice stages of learning individually (as they do during ECRI instruction) or as choral reading.

The text is divided into three sections. **Section One** helps students identify various types of prose, poetry and drama. **Section Two** focuses on authors and what they do to convey meaning for their readers. **Section Three** emphasizes the use of sounds and rhythm in language — especially in poetry. Students learn the subtleties employed by authors to create a mood, tone and allusion — as well as other devices to create beauty of ideas and expression.

TT008-1 **Teaching Writing (Creative and Expository) Skills, Book 1** \$35.95
TT008-2 **Teaching Writing (Creative and Expository) Skills, Book 2** \$35.95
(Author: Ethna R. Reid)

Teaching Writing, Book 1, includes 36 sets of directives to teach at least 120 lessons. The writing skills the teacher will be able to teach with the use of this text include: making sentences tell more; substituting descriptive words for "said" and "walked;" identifying a paragraph; writing so readers can understand and infer; writing a paragraph without irrelevant sentences; quoting sources; writing opinions; judging qualifications to write; learning to proof and correct; writing using emotionally charged words and the common touch, bandwagon, testimonial and card stacking techniques; writing letters; describing what is seen, heard, smelled, tasted and felt; describing a character; writing fiction about real people or events; writing fiction that is true to life; writing a fairy tale, tall tale, fable, myth, legend, epic; rearranging words in sentences; using a simile, metaphor, hyperbole, personification, onomatopoeia; developing a story plot and revising what is written.

Teaching Writing, Book 2, includes lessons to teach students to write a drama, biography, autobiography, essay, exposition, anecdote, comedy, farce, parody, pun, diary, journal, tragedy, newspaper article, dialects, dialogue, monologue, flashback, allusion, ballad, sonnet, limerick, haiku, epigram, blank and free verse, narrative and lyric poems, concrete poem, synecdoche, metonymy, transferred epithet, symbol, allegory, paradox, analogy, aphorism, elegy, epigram, folklore, idyll, and oratory. It also includes directives for teaching students to write from a first- and a third-person point of view, how to use over- and understatement, irony and satire in their writing, and how to write and rewrite to change the distance in time between an incident and the speaker.

ECRI's experience has shown that if the process and skill of writing is taught from the beginning of a child's school experience, and if the child is given daily writing activities, writing becomes as natural to the child as reading. A model is provided for students to follow as they are taught each skill.

- TT009 **Teaching Grammar for Sentence Reading and Writing (Two Volumes)** \$44.95
(Authors: Ethna R. Reid and William R. Slager)

These two texts represent a major breakthrough in the teaching of English grammar — often a difficult and frustrating task for teachers and students alike. Now through ECRI's research there is a better, more efficient way to ensure that grammar can be an integral part of a language arts program.

Students learn the material with ease and apply it immediately. Every series of lessons ends in a writing activity in which students are able to demonstrate their understanding of each grammatical component taught.

The books contain 87 lessons in three parts. Each lesson takes two or three days to complete. Part I includes the most common forms of sentences: statement, question, exclamation, and request/command. Part II helps students recognize the most basic word classes and sentence functions: nouns (singular, plural, and possessive), subjects (along with their corresponding pronouns), and the verb "be" and other single word verbs. The section concludes with a review of the sentences through the practicing of "yes/no" questions and negative statements. Part III continues the focus on word classes and sentence functions and introduces basic sentence types: Subject-Verb (optional time, place and manner words), Subject-Verb-Object, Subject-Verb-Indirect Object-Direct Object, and Subject-Verb-Complement.

The first lessons in Part III present adjectives and sentences of comparison. The later lessons focus on the development of phrases that consist of a verb preceded by a single auxiliary — specifically the modals **can** and **will** and the auxiliary **be**. Finally, the student receives a brief introduction to coordination with sentences connected by **and**, **but** and **or**; and to subordination by sentences connected with **because**, **before** and **after**.

(About the co-author: Dr. William R. Slager, Professor Emeritus in the University of Utah Department of English, is a noted applied linguist who has specialized in the teaching of English as a second language. He has served on the National Advisory Council on the Teaching of English as a Foreign Language and conducted many workshops for teachers and supervisors, both in this country and abroad. He was project editor for the first two editions of *English for Today*, and is senior author of *Core English*, an elementary series for children who are not native English speakers. He has also published papers on teaching English as a second language. In these volumes he brings his unique expertise to the teaching of English grammar for all students.)

- ST001-4 **Analyzing Sentences (Books 1, 2, 3)** (\$10.00 each or \$27.00 for the three) \$27.00
(Authors: Ethna R. Reid, William R. Slager) for three

These three consumable student texts build on the information contained in the teaching grammar volumes. The three books contain lessons for students to learn to expand noun and verb phrases and sentences. The verb phrase is carefully expanded: at first, one modal or auxiliary is used in front of the verb; then two words are used; and, finally, three ("might have been going"). Sentences with more than one verb (that is, with a subordinate clause) are also carefully introduced. The presentation of the clause moves from noun clauses in Book 1 to adjective clauses in Book 2 and adverbial clauses in Book 3. Lessons on determiners, quantifiers, indirect and direct quotes, prepositional phrases, and passive sentences are also found in these books. Questions and negative statements are reviewed. Infinitive clauses are taught. Book 3 concludes with a comparison of conjunctions (such as "and") and sentence connectors (such as "furthermore").

The format of *Analyzing Sentences* includes explanations that are read by the students and discussed with the teacher. Examples of the grammatical component are provided. Students write in the text where requested. Suggested supplementary activities that can be done at home are included with each lesson. An answer key is provided for the students to check their work.

TT010 **Personally Speaking** \$12.95
(Author: Ethna R. Reid)

Included in *Personally Speaking* are lessons to teach students to pantomime, present announcements, and give extemporaneous talks. Students are taught about pitch and tone of voice, rate, and intonation. As teachers use this text their students will feel more comfortable as they speak in class and in front of parents, faculty, and students during school activities.

See page 30 for a packet of teacher materials to accompany this text.

TT011-1 **ECRI Informal Reading Inventory (IRI), Parts 1 and 2** \$26.95
(Authors: Ethna R. Reid, Maurine C. Winterton, Linda R. Perkes, Myra J. Bridwell)

This test includes a programmed instructional introduction to administering and scoring an IRI and to placing pupils at appropriate reading grade levels. The test is divided into two parts: one can be given to elementary students, and a second can be given to secondary students and adults. Each part for elementary and secondary students has 17 graded levels of reading difficulty: PP, P, 1-1, 1-2, etc. Readability is similar for the elementary and secondary selections on each level, but themes are appropriate to the ages of the reader. Selections deal with current events, persons and interests.

Four Sections

1. Programmed instruction on administering and scoring an IRI for pupil placement in appropriate reading grade level materials.
2. Specific administering and scoring information.
3. Form E — ECRI Elementary IRI reading selections and teachers' scoring pages (grades PP-12).
4. Form S — ECRI Secondary IRI reading selections and teachers' scoring pages (grades PP-12).

Students can be tested on oral reading accuracy, oral and silent reading rates, and comprehension. Teachers have the publisher's permission to reproduce the scoring pages for their pupils.

TT011-2 **ECRI Informal Reading Inventory (IRI), Part 3** \$26.95
(Author: Ethna R. Reid)

This test contains graded level materials from grade six through grade sixteen. The themes are based on subject matter ranging from mathematics to physiology to literature to ecology. It, too, contains information on administering and scoring the test. Scoring pages can be reproduced.

TT011-3 **ECRI Informal Reading Inventory (IRI), Parts 4 and 5** \$16.95
(Author: Ethna R. Reid)

This test includes selections from preprimer (PP) level through grade nine for both elementary and secondary students. There are 14 graded levels of reading difficulty for the elementary level and 14 levels for the secondary level. Readability is similar for the elementary and secondary selections on each level, but themes are appropriate to the ages of the reader. Information about administering and scoring an IRI is included in this book.

TT012 Classroom Management \$7.95

The use of positive reinforcement in the classroom is highlighted in this book. Organizing your classroom and motivating students to learn through a variety of techniques are two helpful chapters. A checklist of self-defeating teacher behaviors is also helpful. Possible reasons for a student's failure to study are also treated in the text. Common classroom situations, situations which you will find in your classroom on a daily basis, are discussed in the book and solutions are provided for each scenario.

TT013 Lesson Plan Book for Reading/Language Arts \$7.95

The ECRI *Lesson Plan Book* is an extremely useful tool for elementary and secondary teachers, teachers of special students and reading specialists. Although secondary teachers, some resource teachers and specialists teach several periods of reading a day, spaces in this book are provided to plan for 498 skills groups.

The *Lesson Plan Book* serves as a reminder of the activities in which ECRI teachers engage.

TT014 Lesson Plan Book for Content \$5.95

This lesson plan book helps teachers to plan their content lessons using ECRI's 12-step process. Space is provided for plans in math, science/health, art, music, physical education, social studies, computer, literature kits, and other. Dates can be written in as teachers plan for their lessons for content subjects.

TT015 Spanish Directives \$25.95

Directives for teaching new words through seven different methods, teaching sounds, penmanship, spelling, literal and inferential comprehension are available in Spanish.

Order the Spanish version of the directives if you teach reading of English to Spanish-speaking students or if you teach the reading of Spanish.

TT016-1 Enriching a Child's Literacy Environment (ECLE) \$65.00

(Authors: Shauna R. Tateoka, Kathleen R. Barlow)

TT016-2 Enriching a Child's Literacy Environment Book 2 (Science Lessons) \$16.95
TT016-3 Enriching a Child's Literacy Environment Book 3 (Mathematics Lessons) \$16.95
TT016-4 Enriching a Child's Literacy Environment Organization Manual \$12.95

The first manual describes month-by-month small and large muscle coordination activities, sensory stimulation for oral language development, reading and mathematics readiness activities, music and rhythm activities, concept development, and the presentation of children's literature. The book also contains patterns for numerals and shapes. Books 2 and 3 contain suggestions for teaching science and mathematics to preschoolers and kindergartners.

See page 27 for a packet of teacher materials and other items to accompany this text.

TT017 Teaching Punctuation \$28.95

The purpose of this book is to emphasize punctuation that is absolutely necessary for correct writing. In order to be understood as we write, we must first understand and master the thoughts we are trying to express, and then write each sentence so readers receive that message. Lessons are provided to teach the use of a: period, comma, semicolon, colon, dash, apostrophe, quotation marks, punctuation marks with quotation marks, and marks of parenthesis and brackets.

TT018	Teaching Science and Reading	\$25.95
TT019	Teaching Social Studies and Reading	\$25.95

The objectives of these texts are to provide teachers with a format for integrating reading/language instruction with the teaching of other subjects. Ten units are included in each text with descriptions of hands-on experiences, materials to use to teach: specialized vocabulary, comprehension and study skills, and to include writing and discussions as students master the content.

IA022	Library Resources	\$40.00
-------	--------------------------	---------

Library Resources contains 680 pages of book lists. Over 6,000 books have been graded at ECRI using the Spache Readability Formula for Grades 1-3 and the Dale-Chall Formula for Predicting Readability for Grade 4 and up. *Library Resources* is divided into two sections. The first lists the books by reading level. Read aloud books come first, then first grade books next, second grade books after that, and so on through twelfth grade and young people levels of reading difficulty. The second section lists all the same books alphabetically by title. This list also provides the grade level of each book.

The book is a MUST as a resource for teachers who want to know the reading levels of books.

Content Lessons	\$5.95/ea
------------------------	-----------

Each packet contains teacher resource materials following ECRI's twelve step method of developing content lessons.
